

# Experienced Veterinary Technician

## *When – Position Available Now*

Our hospital has a Veterinary Technician position available now.

## *Where - Traverse City, Michigan*

Our small animal practice is located in beautiful Northern Michigan, a favorite vacation spot for generations (hunting, fishing, skiing, hiking, Etc.) and a great place to live and raise a family. We are on the southeast side of town. The whole region has been among the fastest growing areas in the state for the past 25 years (or more) and our area is still growing.

## *Who – Companion Animal Hospital Of Traverse City*

Dr. Marcia Izo (Seymour) (a 1979 graduate of the Michigan State University school of Veterinary Medicine) built and founded the **Companion Animal Hospital Of Traverse City** in April of 2002 after serving the area as an associate veterinarian for over 20 years. We have a beautiful (new in 2002) state-of-the-art (fully equipment and computerized) facility in a park-like setting. We have (Radiograph Standard & Dental, In House Blood Analysis, Anesthesia Monitoring, EKG, Etc.) in the laboratory and throughout the hospital. In 2005 we added an associate veterinarian, Dr. Jennifer Kavran a 2005 graduate of the Michigan State University School of Veterinary Medicine.

You can get to know us better by looking over our website at: [www.CAHTC.com](http://www.CAHTC.com). The “Our Vision” document will tell you a great deal about us... We live it every day!

## *The Practice – Dogs Cats, Rabbits & Pocket Pets*

We practice professional, high quality medicine with great client communications and we have FUN! We take the time we need to do it right. Our team is more like family which we think is the best way to work. Expectations for all of our team members are high, to provide the very best compassionate care, client service and education possible at each position. We expect that you work well independently and as an integral part of the team. We place great value in honest, loyal and dedicated people and they are rewarded with a great place to work, competitive benefits and salaries (on the higher side for the profession). We rely on regular staff meetings to help keep everyone focused on our goals and make adjustments.

As you can imagine, education and continuing education are also very important to us. Our profession is changing in many ways and at a rapid pace. Continuing education by dedicated people is how we will confront this change on an ongoing basis with the goal being to continuously get better at what we do and how we do it.

### **Emergency On-Call**

Our practice participates in a cooperative emergency rotation with the other veterinary practices in our area. This system drastically reduces the number of on-calls each year (approx. 1 – 2 week nights per month and 1 weekend per 3 month period, per doctor). On-Call work is divided between all capable staff to reduce this burden even further.

### **The Successful Candidate**

We will find the right person to fit in with our family and become an integral part of providing and advancing our high standards of care. This person will:

- Be Honest
- Be Of High Integrity
- Be a Positive Person
- Have a “Can Do” Attitude
- Be Experienced And Confident In Your Abilities
- Be Innovative And Skilled Implementing Plans With Others
- Be Comfortable Working With Doctors & Staff Alike
- Be Highly Skilled In All Standard Technician Duties
- Be Ready And Willing To Learn From Others
- Possess Excellent Communication & Organization Skills
- Possess Excellent Training Skills
- Possess Above Average Computer Skills
- Be Comfortable Managing Others
- Be Ready To Work With Others Or Work Independently

Applicants should have (Min.) 3 years Technician experience. Our practice will fully utilize all of the skills of a well rounded, experienced Technician.

Qualified applicants will send their resume with references to:

Mr. Terry Seymour  
Practice Manager  
Companion Animal Hospital Of Traverse City  
1885 Chartwell Drive  
Traverse City, MI 49686
